NOVO!

PROFESSIONALNA BOJA ZA KOSU PROIZVODENA SOLARNOM ENERGIJOM

- Raznovrsna profesionalna boja za kosu kojoj je Udruženje finskog rada dodelilo Key Flag
- Odličan odnos cene i kvaliteta kao jedan od ključeva uspeha
- Jedna boja koja se može koristiti za polutrajno i trajno farbanje, kao i za toniranje – smanjuje zalihe
- SensiDO boje su zasnovane na neutralnim podtonovima, a Quick boje su zasnovane na hladnim podtonovima
- Odabirom veganske boje za kosu bez parfema za svoj salon, birate i zdravije radno okruženje

Numeracija Kruga Boja	
/1	Pepeljasta
/2	Zelena
/3	Žuta
/34, /43	Narandžasta
/4	Crvena
/5	Mahagonija
/6	Ljubičasta
/7	Braon
/8	Plava
/9	Siva

SensiDO Krug Boja

- Pažnja: SensiDO boje su zasnovane na neutralnim podtonovima, a Quick boje su zasnovane na hladnim podtonovima
- Nijanse su grupisane na krugu boja
- Sve nijanse su kreirane od 3 osnovne boje
- Sekundarne boje su narandžasta, ljubičasta i zelena
- Sekundarne boje se prave mešanjem 2 primarne boje
- Dve boje jedna naspram druge u krugu boja nazivaju se komplementarne
- Komplementarne boje neutrališu jednu drugu

Žuta ↔ Ljubičasta
 Plava ↔ Narandžasta
 Crvena ↔ Zelena

Tablica Pigmentacija

@hairbymilkolaotanen

Jedna boja za toniranje, polu-trajno i trajno bojenje

Trajno bojenje

Izbor peroksida:

- 3% Ton uz ton, tamnija kao i pokrivenost sede kose
- 6% Ton uz ton, tamnija ili 1 nivo svetlijih nivoa podizanja
- 9% Oko 2 nivoa podizanje
- 12% Oko 3-4 nivoa podizanja

Odnos mešanja: 1:1 | Vreme obrade: 30–40 min.

Semi-permanent coloring

Izbor peroksida:

- 2.1% Ton uz ton ili tamnija

- 3% Ton uz ton ili tamnija

Odnos mešanja: 1:2 ili 1:3 | Vreme obrade: 10-40 min.

Toning

Izbor peroksida:

- 0.9% Toniranje

Odnos mešanja: 1:1 ili 1:2 | Vreme obrade: 1–30 min.

3 IN ONE Special Series

Special Blonde - 12/-series

Up to 4 level lightening and efficient coverage! Special Blonde shades can be mixed with any other SensiDO color shades.

Peroxide choice:

6% 1 nivo podizanje i nanošenje
9% 2 nivoa podizanje i nanošenje
12% 3-4 nivoa podizanje i nanošenje

Odnos mešanja: 1:2 ili 1:3 | **Vreme obrade:** 30–60 min.

Metallic - 99/-series*

Metallic colors perfectly suitable for various color applications, metallic toning or as a quick booster.

Izbor peroksiда:

0.9% Toniranje
2.1% Ton uz ton ili tamnije
3% Ton uz ton ili tamnije

Odnos mešanja: 1:1 ili 1:2 | **Vreme obrade:** 1–30 min.

Mix Tones

Adding mix tones to intensify chosen color shades. Mix Tones - shades can be added to all SensiDO colors. End result intensity directly depends on the amount of added Mix Tone shade.

Odnos mešanja: E.g. Color 40 g + Mix Tone 5 g + Peroxide 40 g

- /0 (Gloss) diluting clear tone that doesn't lift
- /00 (Lift) lifting clear tone, when using it remember mixing ratio 1 part chosen hair color shades + 1 part /00+ 2 parts de-developer - this will allow you achieve 1 level
- /3 and /4 lighter hair colors contain oxidizing pigments, can be used as direct color, lasts around 6–10 washes
- /2, /6 and /8 contain oxidizing pigments
- /9A strong grey undertone for dark hair (level 8 and darker) and /9B strong grey undertone for light hair (level 9 and lighter) shades contain oxidizing pigments

Highlight colors - S/-series

S-series highlight colors for balayage, somber and ombre techniques. Lifts up to 4 levels. **Attn!** Highly alkaline S/-series is not suitable for on-scalp application. With on-scalp application the S-series shade can be only up to 1/3 of the total color mass.

Peroxide choice:

3% Ton uz ton
6% 1 nivo podizanje i nanošenje
9% 2 nivoa podizanje i nanošenje
12% 3-4 nivoa podizanje i nanošenje

Odnos mešanja 1:1: nijanse S/16 i S/36 1:2

Vreme obrade: Max. 50 min.

ABSOLUTE

Ammonia free Absolute hair color infused with Argan oil is available in more than 70 shades. All shades are built on the same neutral base as the classic SensiDO 3 IN ONE colors.

You can use Absolute colors to make permanent color, semi-permanent color or toning.

Trajno farbanje Izbor peroksida:

3% Ton uz ton, tamnija kao i pokrivenost sede kose
6% Ton uz ton, tamnija ili 1 nivo svetlijia
9% Oko 2 nivoa podizanje
12% Oko 3-4 nivoa podizanje

Odnos mešanja: 1:1 | Vreme obrade: 30–40 min.

Polu-trajno farbanje

Izbor peroksida:

2.1% Ton uz ton ili tamnija
3 % Ton uz ton ili tamnija

Odnos mešanja: 1:2 ili 1:3 | Vreme obrade: 10–40 min.

Toniranje

Izbor peroksida:

0.9 % Toniranje

Odnos mešanja: 1:1 ili 1:2 | Vreme obrade: 1–30 min.

QUICK

You can use these 10 minute Quick colors to make permanent color, semi-permanent color or toning. 13 color shade range. Unlike other SensiDO color lines, Quick has cool color base.

10 minutes quick color

Quick and easy color application with processing time of just 10 minutes. Perfect for short hair. Easy to apply.

Izbor peroksidá:

0.9 %	Toniranje
2.1 %	Polu-trajno
3 %	Ton uz ton ili tamnija
6 %	Ton uz ton ili tamnija

Odnos mešanja: 1:1, 1:2 ili 1:3 | Vreme obrade: 10 min.

Series

Natural /0	Ash /1	/6	/19
Full coverage natural shades	Matte ashy shades	Soft violet	Ashy grey shades
Gold /3	/16	/91	Strong grey shades
Full coverage golden shades	Matte violet shades	Strong grey shades	

MEN SHADES

SensiDO Men Shades is developed and manufactured in Finland perfume free beard color for those who want to quickly achieve and stylish and groomed beard. Available in five shades that can be mixed to gather.

For beard, moustache, eyebrows and hair

Easy-to-apply, non-bleeding consistency beard color with short development time. Allows to avoid visible root re-growth, ideally camouflages and blends grey hair, helps even out natural tone for a fuller more groomed look. Men Shades colors are ammonia free to minimize irritation due to intended application.

- Start the coloring process from the areas that have more grey hair or are completely grey
- If the grey hair amount is 70–100 % prolong the development time by 5–15 minutes
- For a lighter end-result development time is about 10 minutes
- For a darker end-result development time is about 15 minutes
- After the development time rinse thoroughly with water, wash with shampoo and if needed use conditioner

Seda kosa	Odnos mešanja	Peroksidá	Vreme obrade	Krajnji rezultat
Less than 30 %	1:2	3 %	7–10 min.	Semi-translucent up to 30 %
30–60 %	1:1,5	3 %	10 min.	Translucent up to 50 %
60–100 %	1:1	3 %	10–15 min.	Saturated up to 80 %

NORDIC SHADES

Low-alkaline SensiDO Nordic Shades color range inspiring hairdressers and clients alike.

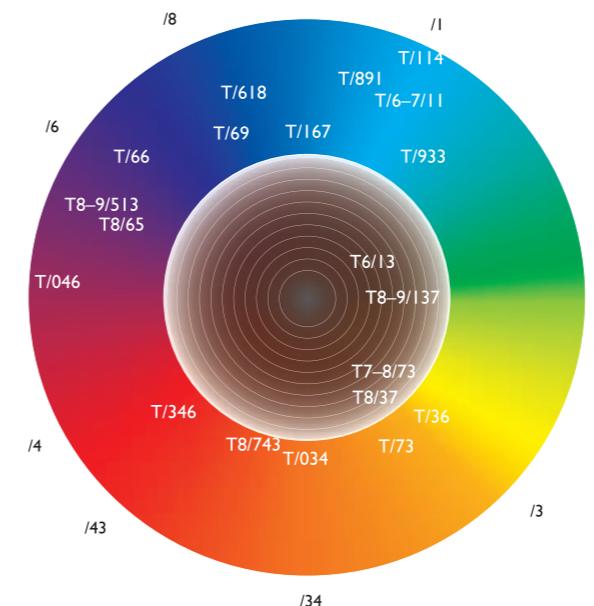

Quick and long-lasting reflective shades best suitable for right after bleaching to add dimension and tone, or to neutralize brassiness for a perfect end result. SensiDO Nordic Shades now also have several level darkening and deepening shades.

- Perfectly suitable for after bleaching application
- Low-alkaline, durable shades
- Does not contain direct pigments
- Tones / adds dimension / neutralizes brassiness

Izbor peroksidá: Can be used with 0.9 %, 2.1 % or 3 % developer. To avoid excessive warmth, when looking to achieve a cool tone, use 0.9% peroxide.

Odnos mešanja: 1:1, 1:2 ili 1:3 | **Vreme obrade:** 5–30 min.

Pažnja! Cold shades might need only 5–10 minute processing time. If the shade has some warmth to it, it might require 15–20 minute processing time. The longer processing time, the longer lasting color result.

Colorwheel numbering

/1 = Ash	/4 = Red	/7 = Brown
/2 = Green	/5 = Mahogany	/8 = Blue
/3 = Yellow	/6 = Violet	/9 = Grey
/34, /43 = Orange

OXIDANTS and their differences

SensiDO peroxides are perfume free and vegan. Their consistency is optimized for SensiDO colors and bleaching products to always achieve perfect end results.

Developer for Toners

Perfect consistency peroxide that allows quick color mixture application - even from a nozzle bottle at the wash station. Contains oil to ensure soft color mixture consistency and protect scalp during coloring, making Nordic Shades application even more pleasant.

0.9 %
Size 1000 ml

Creme Developer

Creamy oxidizer for SensiDO colors and lighteners. Contains mineral oil. Mineral oil enhances the effect of the oxidant, preventing color or lightener mixture from drying out, while protecting the hair during color and lightening treatments. Thanks to the creamy composition, the mixture can be easily applied

2.1%, 3%, 6%, 9%, 12%
Size 1000 ml

Oxidant

Liquid peroxide. Creates a gel-like, easy to apply consistency. Innovative S.O.C.S.- technology delays oxidation of the ready color mass, providing additional time for color application for example in multiple color application. We especially recommend it to be used when coloring grey hair, or when using lifting color and trendy bright shades.

2.1%, 3%, 6%, 9%, 12%
Size 1000 ml

Oxidant or Creme Developer? You can use SensiDO Creme Developer with all SensiDO colors and bleaching products. SensiDO Oxidant is not recommended to use with SensiDO Blonde bleaching powders as well as SensiDO Bleaching Paste.

COLORING GREY HAIR with SensiDO colors

Completely grey hair is clear, as hair is lacking pigments (natural or artificial pigments). Most often hair is not completely clear, but a combination of naturally colored, grey and clear hair.

When coloring grey hair it is important to pay attention to the level of grey, which then defines the shade, as well as peroxide choice, often resulting in 3%. The higher the amount of grey hair, the more Natural, Intensive Natural or Gold series shades we will need to add.

Amount of grey hair	Amount of color
Less than 20 %	Trendy color can be used alone
20-50 %	1/3 Natural, Intensive Natural or Gold series or 2/3 of other trendy color shade
50-70 %	1/2 Natural, Intensive Natural or Gold series color shade and 1/2 of other trendy color shade 2/3 Natural, Intensive Natural or Gold-series color and 1/3 of other trendy color
70-100 %	

TIP! Basic instructions 7/0 + 7/3 + Oxidant 3% (1:1)

If you want a cooler result: 7/0 + 7/3 + 7/1 + Oxidant 3% (1:1:1)

Pažnja:

- 100 % grey hair coverage with Natural /0, Intensive Natural /00 and Gold /3 series
- When coloring with 3 IN ONE -series, use 3 % Oxidant
- When coloring with Absolute-series, use 6 % Oxidant
- Remember to use a generous amount of color mass when coloring grey hair, which is usually more than during normal hair coloring

PIGMENTATION CHART

COVER SHADES

Ready pre-mixed shades for easy grey hair coverage and coloring hair darker.

New innovative color line for easy and inspiring coloring. Cover Shades, specifically developed for grey hair coverage, contain all the elements white hair needs. Cover shades are also amazing in colouring lighter hair into darker.

- Available in 20 shades
- Can be mixed with other SensiDO colors
- Enriched with Argan oil
- Vegan and perfume free
- Lifts only two levels
- If using /0 Clear Mix Tone with Cover Shades remember it will affect the coverability of the color

Colorwheel numbering

/1 = Ash	/4 = Red	/7 = Brown
/2 =	/5 = Mahogany	/8 = Blue
Green /3 =	/6 = Violet	/9 = Grey
Yellow /43 =

SIMPLEX BONDER

SensiDO Simplex Bonder prevents hair disulfide bonds from breaking, repairs previously broken bonds and strengthens hair. Improves hair color endurance and protects hair from damages caused by mechanical stress.

Coloring + Simplex Bonder

Color	Peroxide	Simplex Bonder
1 part	1, 2 or 3 parts	0,1 parts
40 g	40-120 g	4 g

Do not increase strength of peroxide! Measure the necessary amount of Simplex Bonder to add to the color mixture. The amount of the peroxide does not alter the amount of Simplex Bonder. Prepare the mixture according to the instructions of the colorant used. First mix color and peroxide together, only then add Simplex Bonder. After processing time rinse hair thoroughly, wash and condition with products of your choice. **Using heat with Simplex Bonder**

- If hair heats up during bleaching process, it is caused by metals and minerals accumulated in the hair from water, not by Simplex Bonder
- Remember to follow the process closely, checking regularly every 3-5 minutes
- Temperature cannot exceed 40 °C
- Processing time max 20 min.

Intensive conditioning treatment

Simplex Bonder can be used simply as an intensive conditioning treatment also it can allow to color or bleach even most damaged hair. If client's hair is in a really bad condition, perform Simplex Bonder-intensive conditioning treatment 1-3 days prior to coloring or bleaching.

Water	Simplex
70 % (e.g. 70 ml)	Bonder 30 %

Use: Mix 70 % water and 30 % of Simplex Bonder in (e.g. 30 ml) an applicator bottle. Saturate dry hair with the mixture from roots to ends and brush through. Leave on for 15 minutes or longer. Do not rinse, simply apply SensiDO Simplex Bonder Conditioning Mask directly on top, from roots to ends. Leave on for 15 minutes or longer. Attn. You can prolong product's processing time; the longer processing time, the better end results of the treatment, but always remember to rinse off the product in the end.

Home care products

Highly effective repairing and moisturizing perfume free home use products for daily use. Suitable to protect hair as well as repair already damaged hair. Home care products are perfume free and vegan.

Re-Bonding Shampoo

- Deeply moisturizes, conditions and repairs, protecting damaged hair
- Adds manageability and shine, leaving hair looking nourished
- Sizes 250 and 1000 ml

Conditioning Mask

- Deeply moisturizes, conditions and repairs, protecting even from mechanical stress
- Repairs and strengthens hair
- Works as 2 in 1, as a conditioner or a mask
- Sizes 250 and 1000 ml

When performing the treatment: The longer the treatment time - the better the end result.

SENSIDO COLOR LOCK

Color Lock to be used right after
color processing time before
rinsing color off.

- Contains conditioning **polymer**, that creates a long-lasting moisturizing effect in hair. Polymer activates inside the hair during the next five washes enhancing hair's natural hydrophobicity and wet combability. Plant-derived active ingredients support hair natural moisture balance and improve hair resistance against chemical and mechanical damage. Improves hair elasticity and resistance to stretching, resulting in hair breakage resistance.
- Pro vitamin B5** effectively moisturizes and strengthens hair. Improves elasticity, making hair more manageable.
- Sunflower seed extract** is an antioxidant that helps prevent hair color from fading. Protects against UV-rays.
- Allantoin** is a keratolytic ingredient that soothes and moisturizes scalp after coloring process.
- Use:** Apply a generous amount of product to hair after hair color processing time and gently massage it onto the scalp and through hair. Leave on for about 5 minutes and rinse thoroughly. Towel dry
- Size 500 ml/hair and use conditioner.

PRO COOLER

Pigment

Versatile pigment admixture to admixture add during bleaching process, to hair color, shampoo or a conditioner. Effectively neutralizes yellow tones for bright blonde shades. Perfume free and vegan. Size 250 ml.

With hair color: Maximum

25 % Pro Cooler in the ready mixture

With shampoo or conditioner: 1 part of Pro Cooler, 3 or 4 parts of conditioner

COLOR REMOVER

Gentle foaming liquid

Quickly and easily removes permanent and semi-permanent color stains from e.g. forehead, ears, neck line or hands. Perfume free and vegan. Size 100 ml.

Use: Add stain removing liquid to a cotton ball and gently massage the affected skin area. Repeat if necessary.

SENSIDO MATCH

Color depositing mask that doesn't only add a beautiful hue to hair but also effectively conditions them. Contains KeraGuard™ that leaves hair silky soft and shine that lasts.

KeraGuard™ active ingredients soften hair structure, moisturize hair, protects hair against damage and prevents hair color from washout. Hair feels silky soft and vibrant. An updated color mask shade line will make sure your client find a perfect shade for them.

- A versatile shade line of 15 shades
- Development time 15–20 minutes
- Perfume free and vegan
- Manufactured in Finland with solar energy

Vivid

MIX & MATCH

Perfume free & vegan color conditioner

Pigment-rich color conditioner Mix & Match colors processed hair, improves hair color and shade intensity, adds shine. You can create a perfect color match to any of the 150 SensiDO colors from the chart or prepare your individual vivid, metallic, pastel or any other IT shade. Customized Mix and Match color conditioners are not ready available for sale from the shelf, making them unique for your clients as an after-care product perfectly matched to their hair color. Great product to offer as an additional service to clients who came for a haircut or sell for home use

Individual color conditioner is created by mixing 5 SensiDO Mix & Match base colors: White, Cyan, Magenta, Yellow, Black. Available in 1000 ml

Miksi valita SensiDO Mix & Match?

- Why choose SensiDO Mix & Match?
- Renews and add depth to current color
- Improves hair color durability between colorings
- Endless color possibilities
- Easy to color light hair e.g. into bright pink
- Lasts about 6–8 washes, depending on hair

DIRECT DYE REMOVER

Helps fading and removing direct dyes quickly and safely. It also works to effectively remove SensiDO Match direct dyes.

Hair before Direct Dye Remover

Hair after Direct Dye Remover

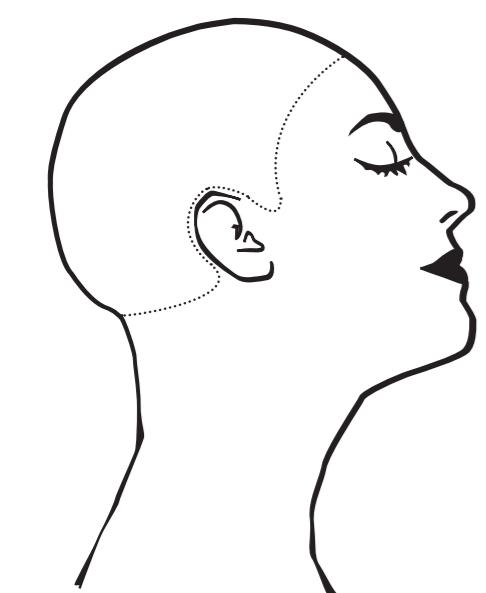

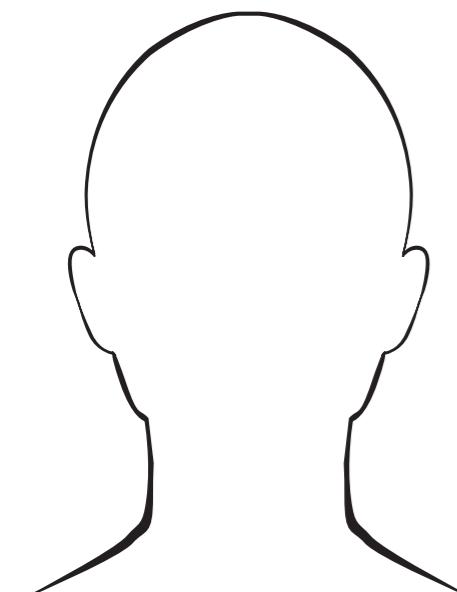

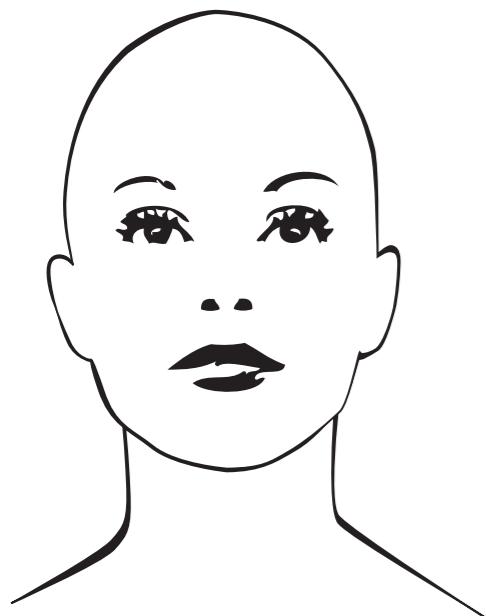

After coloring hair

Many admire vivid and rainbow-colored hair. They are also concerned about how the hair will look when these colors fade. Blue direct dye pigment in particular, is known to penetrate deep into hair and be more challenging to fade compared to other direct pigments, oftentimes resulting in blue-green faded shades. It can also be challenging to remove and until now the best trick to remove the faded blue was to cover it with a complementary pigment. Infused with oil to protect hair during treatment. Perfume free and vegan. Size

Use:

- 500 ml.
- Shake the bottle, until the liquid inside turns almost white
 - Mix 1 part of bleaching product with 7 parts of Direct Dye Remover
 - Apply generously on dry or towel-dried hair
 - Process for 45 minutes
 - It is recommended to work the mixture into the hair and, if needed increase the mass during the processing time
 - Rinse with warm water, wash with shampoo and use a conditioner
 - Wear protective gloves
